

# Special Focus Sessions

These sessions do not require advance registration or tickets

## Monday, November 30

7:00 AM – 8:00 AM

### Medical Myth Busters: Fact and Fables in Radiology

Moderated by

James G. Smirniotopoulos, MD

### Dynamic Volume CT: Impact on Patient Management

Moderated by Kieran J. Murphy, MD

4:30 PM – 6:00 PM

### The Revolution in U.S. Health Care

Moderated by Frank J. Lexa, MD

### Jeopardy: Neuroradiology

Moderated by Jonathan H. Burdette, MD

### Assessing Therapeutic Response to Cancer Treatment: Do Advanced Techniques Make a Difference?

Moderated by Lawrence H. Schwartz, MD

### Prostate MR Imaging: Is There an Added Value in Clinical Management?

Moderated by Jelle O. Barentsz, MD, PhD

### Parasitic Diseases: A Head-to-Toe Review from the AFIP (In conjunction with the Armed Forces Institute of Pathology)

Moderated by William D. Craig, MD

### Advanced Imaging of Cartilage

Moderated by Garry E. Gold, MD, MSEE

### When CT Cannot Be Performed: MR Angiography for Pulmonary Embolism Diagnosis

Moderated by Lawrence R. Goodman, MD, and Martine J. Remy-Jardin, MD, PhD

### Clinical Needs for Quantitative Imaging in Brain Disorders

Moderated by Carolyn C. Meltzer, MD

### Funding for Innovative Imaging Technology Development, Part I: Overview of the NCI and NHLBI Small Business Innovation Research (SBIR) Programs

Moderated by David Beylin, MS, MBA

## Wednesday, December 2

4:30 PM – 6:00 PM

### Musculoskeletal Radiology Quiz Bowl

Moderated by David A. Rubin, MD, and Daniel E. Wessell, MD, PhD

### Wait, Wait, Don't Tell Me: Neuroradiology/Head and Neck Edition

Moderated by Lawrence E. Ginsberg, MD

### Is PET a Reliable Indicator of Tumor Viability in the Head and Neck?

Moderated by Peter M. Som, MD, and Lale Kostakoglu, MD

### Radioembolization/Microsphere Brachytherapy: What Is the Efficacy?

Moderated by Riad Salem, MD, MBA

### Structured Reporting: How Much Structure Is Enough?

Moderated by Curtis P. Langlotz, MD, PhD, and Charles E. Kahn, Jr, MD

### Controversies in Setting Up a Fetal Imaging Program: Who, Why, and How?

Moderated by Dorothy I. Bulas, MD

### US in 2015: Can We (Should We) Shape the Future?

Moderated by Mitchell E. Tublin, MD

### Fear Factor: Breast Imaging Cases That Challenge the Experts (An Interactive Session)

Moderated by Jennifer A. Harvey, MD

### Funding for Innovative Imaging Technology Development, Part II: The NCI SBIR Program and Challenges of Technology Commercialization

Moderated by David Beylin, MS, MBA

## Thursday, December 3

7:00 AM – 8:00 AM

### Requiring a Year of Diagnostic Radiology for Radiation Oncology Residents: The Wisdom/The Reality

Moderated by Larry E. Kun, MD, and James S. Welsh, MD, MS

### Advances in High-Speed MR and CT Imaging: What Are the Trade-offs?

Moderated by Charles A. Mistretta, PhD, and Mitchell D. Schnall, MD, PhD

3:00 PM – 4:00 PM

### Head and Neck Anatomy: An Interactive Self-appraisal (An Interactive Session)

Moderated by Hugh D. Curtin, MD

### The Use of Medical Imaging Data Distribution Standards to Improve Patient Care and Safety

Moderated by Steven Falcone, MD

### Government Mandates and Regulations: Impact on Radiology and Facility Accreditation

Moderated by Thomas W. Greeson, JD

### Computerized Physician Order Entry: Advances and Challenges

Moderated by Chris L. Siström, MD

### How Does the FDA Approach to Approving Equipment for Breast Imaging Protect Health and Safety? Do We Need a Technology Assessment Institute?

Moderated by John M. Boone, PhD, and Maryellen L. Giger, PhD

### SUVs in PET Imaging: A Blessing and a Curse

Moderated by Todd M. Blodgett, MD, and Homer A. Macapinlac, MD
